

## **Congregational Survey**

### **Capital Improvements Subcommittee**

To help us better proceed with our task, the CIS team is requesting input from the congregation. We have provided a list of possible improvements to be made in and around our church building. We are asking you to number from 1-10, in importance to you, the 10 items listed on our survey. #1 being the most important and #10 being the least important.

Please understand that other work outside of the scope of this survey will also be performed to complete the project going forward. At the end of the survey, we are asking for comments and suggestions to the items listed, as well as any items that we may have overlooked.

Thank you for your input and consideration to this exciting project.  
Please pray for our committee as we work through this process.

Age group of person filling out survey Please check one.

16-30                    31-50                    50 +
