

# 2018 Product Launch Event

June 13, 2017

Hilton Post Oak

8:00 AM – 9:00 AM

**Registration/Check-in**

9:00 AM – 9:30 AM

**Welcome Presentation**

9:30 AM – 10:30 AM

**Heidi Hewett Presenting AutoCAD Tips & Tricks**

Increase your drawing productivity by decreasing clicks and picks! In this session, you will learn the latest tips and tricks from AutoCAD 2017 & 2018 as well as some hidden gems from previous releases.

10:30 AM – 10:45 AM

**M2S: Maintenance to Subscription**

11:00 AM – 12:00 PM

**What's New in Inventor 2018**

- Model Based Definition, GD&T tools and better Manufacturing communications
- Large assembly open access control improvements single point access
- Improved solid model interoperability “AnyCAD”
- Surface mesh improvements in Drawing mode
- Mesh object dimension abilities in Drawing mode
- Direct export to Revit .rfa output
- Backward compatibility between Inventor 2017.4/2018
- New AutoCAD underlay tools
- Incorporated Inventor Ideas, measure tools, browser improvements, user driven Productivity

12:00 PM – 1:00 PM

**Lunch**

1:00 PM – 2:00 PM

**What's New in Inventor 2018 (Continued)**

2:15 PM – 3:15 PM

**Fusion Modeling Overview**

- Basic modeling with fusion, parts and assemblies a new method
- Sketching tools and constraint systems
- Assembling parts, components, and bodies- “Just what are they?”
- On to manufacturing... within Fusion

3:15 PM – 4:00 PM

**Inventor & Fusion Collaboration – The Total Engineering Solution**

- Multi-user interaction with a design project
- Sharing engineering data and models with Fusion Team
- Manufacturing part tool path creation using CAM tools
