

Words cant describe how much the the Upass program has helped me! Last year I remember feeling stuck and hopless because I couldn't obtain employment but the root of not obtaining a job was not having a way to get there. I was facing many struggles like not having transportaion, not having a job and not having daycare to keep a job. I couldn't have have one without the other. Once I heard that the bus pass program was put in place at Ready for life it was a relief! I was able to at least get around to job hunt once I secured daycare. I got a job within a month and have been working ever since. The bus pass gives me a piece of mind and allows me to be more independent and responsible. Im on the bus from sun up to sun down in order to get my daughter to daycare and then to work. I have been able to keep my job longer than I normally would if I didn't have reliable trnasportaion. Also my daughter was sick on a few occassions and If it wasn't for the bus pass Im not sure how quick I would have been able to get her to the emergency room twice in 3 days. The burden of not having a way to get around has been lifted off of my shoulders! Im so greatful and thank you.
