## Welcome To The Angel Center

The Angel Center was an Angel dream for 10 years that is now a reality. It is a place that offers hope to children.

### *Angel Visitation Center Mission*

*“Environment Shapes Children’s Lives”*

*Everything about the physical, emotional, and philosophical atmosphere at the Angel Visitation Center is purposeful. The way the light fills the room, the art on the walls, and the friendliness you feel when you walk through the door, makes you glad you are here. It is all part of the positive experience that we want our visitors, especially our children to feel. The Angels believe that everyone deserves beauty, respect, and the opportunity to interact in a safe and happy place. Given the proper environment, every child can grow the seed of personal genius that is buried inside of them. By providing encouragement, opportunity, and resources, we strive to keep our Visitation Center positive and uplifting for all who visit. Who knows what lies ahead for those who dream? This Center was a longtime dream of the Angels that became reality, so never be afraid to dream! You could create something that changes our world!*
