

I never thought having a bus pass would be a big deal. Taking the bus shouldn't be a big deal right. Well when you're trying to go to school and work it helps to have that pass that allows you to ride for free. I thank Ready for Life for providing myself and are youth with the ability to get to point "A" to point "B". if I didn't have transportation or had to dig into my pockets all the time for uber I wouldn't be anywhere. The Bus passes have been an amazing commodity a necessity at times.

Sincerely yours,

Sa'Quan Ward
