

Date: Tuesday, August 16th

Location: Famous Supply

4701 Richmond Rd.
Bedford Hts., OH 44146

Sessions: 4pm or 6pm

Limited Seating!

*RSVP by August 9th - noting which session to:
administrator@ohn.asid.org*

One-Hour Shower

What began as standing under a bucket or relying on Mother Nature for a downpour has evolved into a sophisticated shower. And a challenge for bath designers. With the plethora of available valve, trim, controller and accessory options, how do you specify solutions that meet the needs, wants and budgets of clients—from a basic “spritz and shine” shower to the ultimate home spa experience?

**By the conclusion of this session,
you will be able to:**

- Understand legislation affecting showering
- Specify the correct valve for the project requirements
- Peek “behind the wall” to learn about installation considerations
- Improve functionality and aesthetics with trim and accessories
- Create a custom vertical spa
- Incorporate technology into your design
- Create the overall best solution for any shower

**Bring your business card
and enter to win a FREE
Velocity® Two-Function
Rainshower Showerhead.**
