

## Evidence-Based Treatment for Tobacco Dependence Webinar

Tuesday, December 4, 2018  
7:30 a.m. - 8:30 a.m.

### Description

This one-hour webinar will offer in-depth, clinical training on the seven FDA-recommended cessation aides/medication and their proper dispensing to improve tobacco cessation attempt outcomes. Information on billing for tobacco cessation services and the benefits provided by public insurance plans will also be addressed.

### Objectives

Physicians will:

- Increase their knowledge of the seven FDA-approved tobacco treatment pharmacotherapies.
- Counsel smokers by prescribing tobacco treatment pharmacotherapy to improve their tobacco cessation attempt outcomes, including the use of combination therapy.
- Increase their knowledge in regard to public insurance plans that cover NRTs.
- Understand the importance of implementing a tobacco dependence treatment policy within their practice which includes the 5As.

### Presenter

Michael B. Steinberg, MD, MPH, FACP  
Professor and Chief  
Division of General Internal Medicine  
Vice-Chair for Research  
Department of Medicine  
Rutgers Robert Wood Johnson Medical School  
Director - Rutgers Tobacco Dependence Program
