

# Your First Look at MHS

## A Preview Event for 7th Graders

MHS is hosting 7th grade families on our campus for a special preview of our integrated and hands-on curriculum. On Thursday, May 4th, we will highlight a sample of this year's student-driven projects.

Faculty from Math, Humanities, and World Languages will join with MHS students to offer a first-hand look at how our curriculum gives students the opportunity to work across disciplines, apply knowledge to the real world, and leverage the resources of University Circle.

Highlighted projects will include:

- **Building a Utopia:** Applying principles gleaned from across government systems and literature to build the "perfect" community
- **World Languages In and Around University Circle:** Getting out of the classroom and making language come alive
- **Power of Statistics:** Using mathematics with geography and history to better understand our communities and the world

Families will engage with faculty and students, and have the opportunity to address a panel of MHS students, including those who will be graduating this spring.

This is a wonderful opportunity to see how we help students find their path in high school and beyond.

**Who**  
7th grade families interested in learning more about MHS

**What**  
Your first look at MHS, with students and faculty sharing highlights from the year

**When**  
Thursday, May 4th  
6:00 - 7:15 pm

**Where**  
Lillard Hall on MHS's campus

**Let us know you're coming!**
