DDQ Automation | A Distinct Advantage

Effortlessly maintain compliant and accurate content using Qvidian's content library, where changes to one record automatically update across multiple documents

Create standardized response document templates and automate the process so your most current answers are extracted from the Qvidian content library

Strengthen your firm's brand and "wow" your clients by delivering brand-ready DDQ or client questionnaires that adhere to specific requests, and intuitively follow formatting standards

Qvidian Case Study | Investment Firm

Challenge

- Staff was working overtime responding to RFPs, producing quarterly due diligence questionnaires, investor reports, pitchbooks and other deliverables
- Firm had no easily-searchable library of answers to FAQs, which meant time cost searching for data

Results

- Increased RFP productivity over 360% because of faster, more efficient processes
- “Push-Button” DDQs reduced response time by 95%, investor reports, pitch books
- Fully searchable repository of searchable answers, accessible to all team members globally
- Brand awareness and strengthened reputation with standardized, seamless processes
