

What is Mentoring?

Mentoring is a mutual relationship and partnership between two individuals who share common interests. A mentor is a trusted adult friend with a long-term, consistent commitment to provide guidance and support to a young person. By engaging a mentor, a young person should feel empowered to take greater responsibility for their lives, families, community, and program.

THRIVE MENTORING PROJECT

In Camp Fire Thrive, mentoring will provide young people the opportunity to explore career options, seek leadership guidance, educational resources, support with developing social and decision-making skills, and continue to build a positive supportive social network.

MENTOR ROLE

As a mentor, you will provide access to people, places, and things outside the young person's daily routine and environment. Essentially, as a mentor you will help your mentee through the Camp Fire Thrive program and help support him or her during their exploration to find their spark and develop skills to become a productive working citizen.
