

ABCs of Underage Partying

(Alcohol/Drugs, Behavior and Consequences)

An exclusive information session with a panel of experts for parents of high school students

Date: Monday, March 13, 2017

Location: Carondelet High School Garaventa Center

Time: 6:30 p.m. – 8:00 p.m.

What happens if you host a party for your teen? What happens if your teen hosts a party while you're away? We invite all parents to join us on Monday, March 13 for an important evening about the ABCs of underage partying and an opportunity to watch the "Every 15 Minutes" video and hear about what the students learned during the program the week before.

Our panel of experts include a police officer, deputy district attorney and insurance agent who will talk to parents about the criminal and civil liabilities that the parents themselves face if/when they host a party for teens. We will also discuss the problems that arise when the parents leave town and their teens have a party at the house. Following the presentation, our experts will hold a question and answer session aimed at teaching parents how to keep their teens safe regarding drugs and alcohol.
