

# OUR PEOPLE TAKE PRIDE IN THEIR WORK

## EMPLOYEES OF THE MONTH:

### Jennifer Hottle

JUNE 2018

Tool Manager Jennifer Hottle works hard with her team to set standards on testing tools to ensure all tools delivered to the jobsites are in 100% working order. She takes the time to work with all three divisions of the company to ensure all tools are accounted for and each department has what they need when they need it. She has spent countless hours consulting with manufacturers & our S&D Safety team to make sure all regulations are being adhered to and proper inspections of the equipment are completed in a timely manner.

### David Olski

JULY 2018

Senior Mechanical Engineer, David Olski was assigned to take over as lead engineer on the Silver Line Shop & Yard project. Not only was he able to quickly get up to speed with the very complex and fast-paced project, he excelled at dealing with two clients simultaneously. We had a consistent flow of coordination and owner-directed changes. Whether it was a simple equipment change or a more drastic change of location, he properly and effectively analyzed the project to prevent delays. Additionally, he worked very well with our foreman and project management team.

### Dilma Montano

AUGUST 2018

Special Projects Manager, Dilma Montano exemplifies the S&D pillars. Through a variety of projects, she has demonstrated the ability to think outside-the-box. Her ability to work through challenges and use all resources available has been extremely valuable for our clients. Her supervisor added, "A few unique attributes that set Dilma apart are her problem solving and management skills. She is incredibly swift in standing up and taking responsibility. She identifies the challenge, researches it, provides solutions, then discusses and implements the solution."

### Richard Alvarez

SEPTEMBER 2018

Richard is recognized as someone who is open minded and always takes the initiative to learn new skills. His supervisor describes him as "a person who isn't afraid to jump in and do something he has never done before, just for the sake of learning." His excellent attitude sets a great example for our apprentices and younger HVAC service technicians. His team appreciates his ambition and willingness to work late to get the job done. Most importantly, Richard's positive approach to solving HVAC challenges for our
