STATE OF SOUTH DAKOTA)	IN CIRCUIT COURT
: SS	
COUNTY OF HUGHES)	SIXTH JUDICIAL CIRCUIT

JONI JOHNSON and SOUTH DAKOTANS AGAINST THE DECEPTIVE RX BALLOT ISSUE,	32CIV18-
Petitioners,	
vs.	**AFFIDAVIT OF JOYCE MERCADO**
SHANTEL KREBS, in her capacity as South Dakota Secretary of State,	
Respondent.	

STATE OF ARIZONA)
        :SS
COUNTY OF Maricopa)

Joyce Mercado, being first duly sworn, deposes and states as follows:

1. I am employed by and serve as the Operations Manager for Lincoln Strategy Group and additionally perform the duties of office manager.

2. In connection with my role as the Operations Manager, I have nearly 10 years of experience working with ballot access and have helped to process, validate, analyze and file over a million signatures in various states across the United States.

3. I have personally supervised and am familiar with the data input process regarding IM26 referred to in the Affidavit of Meghan Cox.

4. **Petition Data Entry.** As part of our review of all of the IM26 petitions, Lincoln Strategy Group performed the following:

  a. Lincoln Strategy Group secured a recent copy of the voter file from the South Dakota Secretary of State and loaded that into our data system

which we call Abe (hereinafter, "Abe"). This file was necessary in order to have the most current data of all registered voters in South Dakota.

b. Upon receiving the scans of the petitions for IM26, a complete list of each circulator was created based on exactly as it appeared on each petition. Each name and/or address variation warranted a new entry so that our final reports would be reflective of exactly what appears on that petition page.

c. A complete check on all notaries and their expiration dates has been performed and no issues were brought to our attention that were not resolved with our inquiries.

d. These preliminary steps were necessary before the actual validation could begin.

5. **Validation Process.** The process of validating involves looking at the pdf of the petition, entering in the name or portion of the name (first and last) and possibly a portion of the address to narrow the search. Once a record is found, we determine the status and edit the record to include the appropriate fields necessary. We have two comment sections to provide further explanation for those that are anything but Valid. Our team does a thorough job of combing through the pdf pages, validates all the signatures, has another team review all of the work, and then our own quality control team evaluates that work. I oversaw the quality control and data analytics and would look for anomalies that would indicate an incorrect status. These petitions in essence had multiple passes at different levels and times during this process. We referred to and abided by the South Dakota Secretary of State standards to the best of our knowledge.

6. **Re-Validation.** Once these results were finalized our team was instructed to re-validate the findings from our standard coding in Abe (Not Valid, Illegible and Duplicate categories) to conform to the codes used by the South Dakota Secretary of State for their limited sample of the IM26 prior to certification or rejection:

> **Codes for Signature Validation**
>
> **V- Valid**
>
> **NR - No Registration Found in VR File**
>
> **NRC - Not Registered in County Listed**
>
> **C - Photocopy**
>
> **NL - Not Legible**
>
> **AM - Abstract Mark**
>
> **I - Incomplete Signature Line**
>
> **NE - Notary Error**
>
> **CE - Circulator Error**
>
> **VRD - Not registered by Date of Signing**
>
> **DPS - Different BQ Petition Sheet**
>
> **SCO - Signer Crossed Out But Not Completely**

We also edited our remaining internal categories (Valid, Likely Valid and DPS) to match the codes of the South Dakota Secretary of State.

7. **List of Circulators.** Based on our complete review of the signatures from all of the petitions, there were 80 circulators. A full list of the circulators and the total gathered by each circulator is attached hereto as Exhibit 7.

8. **Circulator Geography.** Based on the petitions, the signatures submitted for IM26 originated from circulators claiming a residential address on the petitions in the following cities:

Circulator Address:	Percent of Signatures Submitted:
Sioux Falls:	79%
Rapid City:	8%
Other:	13%

9. **Results.** Based on our line by line review of all petition signatures and our analysis of the complete petition package submitted to the South Dakota Secretary of State for IM26 in its entirety, we concluded as follows:

   a. **Total submitted:** 22,091

   b. **Valid:** 12,532

   c. **No Registration Found in Voter Registration File:** 6,975 (Exhibit 9(c))

   d. **Incomplete Signature Line:** 274 (Exhibit 9(d))

   e. **Notary Error:** 95 (Exhibit 9(e))

   f. **Duplicate:** 414 (Exhibit 9(f))

   g. **Not Registered in County Listed:** 188 (Exhibit 9(g))

   h. **Not Legible:** 1371 (Exhibit 9(h))

   i. **Circulator Error:** 46 (Exhibit 9(i))

   j. **Different (Wrong) Petition Sheet:** 172 (Exhibit 9(j))

   k. **Not registered by Date of Signing:** 23 (Exhibit 9(k))

   l. **Abstract Mark:** 1 (Exhibit 9(l))

   m. **Signer Crossed Out But Not Completely:** 0

   n. **Photocopy:** 0

10. **Circulator Eligibility.** In the course of performing our review of the IM26 petitions, Lincoln Strategy Group did not address circulator eligibility under South Dakota law on facts outside the face of the IM26 petitions.
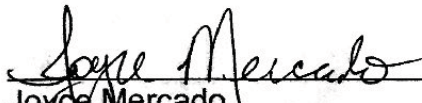

11. **Affidavits of Bryan Mohr and Jon Harris.** I have reviewed the Affidavits of Investigator Bryan Mohr and Investigator Jon Harris and the names of the circulators contained therein. A calculation of the signatures gathered by category for the circulators referred to in their Affidavits is attached hereto as Exhibit 11.

12. **Final Calculation.** Based on our review and analysis, the proponents of IM26 did not submit 13,871 valid signatures.
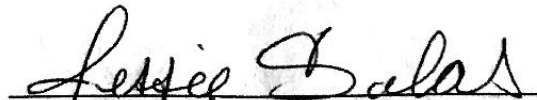

13. **Exhibits.** This Affidavit is supported by the following Exhibits to this Affidavit, which have been prepared by me and are numbered to correspond to the paragraphs above that reference each Exhibit:
