TRAINING ANNOUNCEMENT

LAW ENFORCEMENT 4-DIMENSIONAL FIREARM DEFENSE

Sponsored by www.PFCloadout.com & PFC Loadout Partners

FREE to approved law enforcement trainers & supervisors (2 per agency).
Visit www.PFCtraining.com to enroll.

Date: Thursday, January 19, 2017

Times: 5:00pm-8:00pm

Course Description:

There is shooting, and there is gunfighting; and they are not the same. PFC again breaks new ground and enhances survivability with this innovative program, which utilizes UTM non-lethal training ammunition (NLTA) in a force-on-target setting. Students will first be taught the principles of live fire movement using their handgun or carbine weapon system in order to establish the critical skill-at-arms required for problem solving against live, dynamic threats. Further instruction features modules of PFC's "Mover-Mover" series of drills, which seek to work the peripheral, adrenal, and spatial muscles that simply get neglected during rote square range training. Dye Marking Cartridges (DMC) for too long have been under-utilized and only thought of for Force-on-Force training; 4-Dimensional Firearm Defense stands this paradigm on its head. This class will take your firearms training to another level.

Student Equipment (if you do not have the listed gear, you can still attend; just let us know):

- Duty or casual training attire with long pants
- Duty gear with NO WEAPONS (All guns and some gear will be provided)
- Personal clear eye protection (if desired/available; eye pro can be provided)

PFC Loadout will provide the following from our event sponsors and partners:

- Ultimate Training Munitions (UTM)** Non-Lethal Training Ammunition
- UTM/NLTA converted **Valkyrie Combat** Glock handguns
- UTM/NLTA converted **Praestolor Arms** Progressive Defense Carbines
- High Threat Concealment (HTC)** and **PFC BOBB** holster systems
- High Speed Gear** magazine pouches
- Clear eye protection

Location: PFC Headquarters
8840 W. Russell Rd. Suite 230
Las Vegas, NV 89148
