# About ETFCM

**ETF**

CAPITAL MANAGEMENT

**ETF Capital Management** is a Portfolio Management firm specializing in custom tailored wealth management solutions for affluent Canadian Investors. Lead by Chief Investment Officer (and host of Berman's Call on BNN) Larry Berman, ETF Capital Management combines the themes of wealth preservation and growth, with diversified ETF-based investing, and global tactical asset allocation. The firm's investment strategies focus on delivering performance through value opportunities – overweighting exposure to sectors, countries, and asset classes when they are relatively cheap, and underweighting them when they become relatively expensive. By rotating exposure via Exchange Traded Funds (ETFs), these strategies are made efficient and cost-effective. ETF Capital Management was founded in 2006. As of Q4-2015, ETFCM manages close to half a billion dollars of assets.
