Are you a business owner? A freelancer? A stay-at-home mom? Are you still working a nine-to-five job, but dream of working for yourself?

There is great joy and risk to becoming an entrepreneur. This anthology seeks to provide hope for the journey and a roadmap for finding balance as an entrepreneur.

According to the 2014 The State of Women-Owned Business Report, the number of women-owned firms in the United States has increased by 68%—a rate 1½ times the national average. The female business owners range from stay-at-home mom to owners of million-dollar businesses.

When Women Become Business Owners provides solid business and faith-based advice from real female entrepreneurs. Find wisdom, inspiration, and encouragement for those times when you may find road blocks or fear trying to snatch your dream away.
