❖ **CRAFT ACTIVITY**

For this activity four silver and golden ties, and a cardboard mold were given to each participant. They all made their Christmas wreath lead by Karla. She also taught them how to make other paper ornaments . Luz Mariana was in charge of the evaluation and Angelita took notes.

*A Fundraising activity was carried out and we raised the amount of C\$1,610.00 Cordobas (US\$53). Marcia was in charge of the activity. Later on, we provided snacks and all participants were given decorative candles.*

*Reports were collected and we announced that this year's BIKE/HIKE t-shirts are ready (gray and green colors will be used). Everyone can participate by supporting the organization and signing up for this event at a cost of C\$200.00*

## ❖ EVALUATION

- ❖ The class has been very practical, easy to reproduce and recycling materials can be used.
- ❖ Each course brings new knowledge and it is very easy to make . We use our imagination to be creative. We thank Professor Karla and the Wisconsin organization for this lesson.
- ❖ It is very useful as the Christmas season is coming up. This class will help us to know how to decorate the house.
- ❖ The crafts can be made in our homes and generates an income .
- ❖ It motivates us to innovate with the resources that we have. We open our minds to make variety of activities.
- ❖ It is important because we learn to work with few resources to make beauties. Now we can motivate children and young people to make beautiful Christmas wreaths.

The material used during the the training  
(ties, cartons, and decorated candles) came from  
Wisconsin to be donated to  
Nicaraguan people. THANK YOU!!!
