# Baking and Craft Class – Sherin Bowen Lending Library

October 27th and 28th

# Candy jar made of corrugated paper

Craft class was fun because the children learned how to make candy jar using corrugated paper. Nine children between 10 and 12 years old assisted the activity organized by Karla and Jael. The class ran very well and all participants enjoyed cutting and gluing all the pieces to have the product done. To make the ties they used ribbon to decorate the candy jar.

Thanks to the Organization for supporting us with the materials and Karla for teaching us this course. At the end of the activity, the children were satisfied because they finished the candy jar successfully.

"I liked the process that we follow to make the candy jar. Mrs. Nuñez explained to us step by step how we could cut the paper and glue the ties on the box. At the end, I got a pretty candy jar." **Denis Jarquin**

"The candy jar was easy and practical to do. I liked to cut the paper and get the form of the vase. Thank you for supporting us in our learning development." **Nataly Gutiérrez**

"I really enjoyed the class because this time we used a different type of paper and we did a can jar. My candy jar was pretty actually, I am thinking that with my parents's support I am going to do more as a Christmas gift for my family and friends. Also, I would like for the last class to learn how to make a snow man using plastic cups and trees made of cloth to decorate Christmas. I am grateful with Karla and Jael for teaching us to make this craftwork and giving us the time to explain the process using different materials." **Michelle Canales**

"In the craft class we made a candy jar with Mrs. Nunez and Jael. I liked the activity because the teacher supported us and was patience with us all the time. I liked that part when we cut the paper and glued the ties on the box. My candy jar was pretty ! I am thankful to W/N partners for developing projects for our learning development in Nicaragua. " **Tatiana Gutiérrez**

"I thank God for giving me this day and the opportunity to be here in the organization with my friends, Mrs. Nuñez and Mrs. Medina. Thank you to the donors from Wisconsin that provided the materials and resources that we needed. The candy jar that I made was easy because we use silicone glue sticks and ribbons to decorate the box. I think the paper that we used was perfect for this product. I love it." **Chelcin González**

## PIZZA FILLED WITH MOZARELLA CHEESE

October 28th 2016 we had the ninth bakery class with children from Sherin Bowen Library. Ten children assisted the activity , they were excited and happy because they love pizza filled with mozzarella cheese. Karla explained step by step how to use the ingredients and the measurement needed during the process. Some children helped to prepare the sauce while others measured the flour and mixed the rest of the ingredients. Then, they prepared the dough getting a smooth texture. After that, the edges of the pizza were filled with cheese and ham on the middle of the pizza. Finally, the kids helped to bake the pizza and tasted a delicious pizza!

# Comments from students

"Well I liked the whole class that Mrs Nuñez provided; I got so excited when we made the pizza. I thank the organization and donors from Wisconsin that make this learning activity possible."

"I really liked the pizza class especially when I kneaded the flour. I love to eat desserts and pizza."

"I like to be creative when I am cooking because I like to taste new recipes. The pizza that we made filled with mozzarella cheese was awesome. Cooking help us to know more about new ingredients and meals. I loved making pizza. It was delicious! "

*delicious*

"I loved the bakery class because Mrs. Nuñez has taught us to have all kitchen utensils clean and always use the chef hat. I liked when we added the ingredients in the pizza and baked it. I am grateful to Wisconsin for the donations that make possible this class"

"I am happy because the learning activity that we had today was how to make pizza filled with cheese in the edges. It was delicious! Thanks to this project that makes possible this class to learn a new an occupation for our future."

"The whole class was instructive, we prepared the pizza, cut the vegetables and blended it. I liked making pizza with my friends, Karla and Jael's help. I am grateful to them for the patience that they have to teach us, also to the donors from Wisconsin for this achievement. "

Making pizza activity was a success because we accomplished our main goal to have children being able to prepare the pizza following the recipes by themselves. We are finishing the Bakery project and the students feel very happy for the knowledge that they have been gotten. They know they are capable of preparing their own healthy and hygienically food. Thank you to Wisconsin for donating the money for our children in Nicaragua.

Thank you!

**Jael Medina**

# Evaluation

October 27th we made the Candy jar where the children demonstrated their creativity and management of the corrugated paper and silicone guns to get the candy jar done. I congratulate the kids for their hard work and dedication in our crafts classes . All these classes help them in their psychomotor and emotional development as an individual. I am grateful to the organization in Wisconsin and Nicaragua for their love and dedication with the children.”

Reading is an incredible experience in the children’s lives. ”

In the bakery class we cooked a pizza with ham. It's worthy to mention that boys and girls were only with my supervision and guide to prepare the tomatoes sauce, dough and filling the pasta. Later, they baked the pizza filling the edges with cheese and the rest of the pizza was prepared with ham. It was delicious.!

Thanks to God for letting me support and help to share my knowledge and teach the bakery class to children in Nicaragua.

Three girls Naomi, Michel and Raiza were the people who prepared the natural tomatoes sauce to make the pizza and it was delicious! The girls were capable of following the recipe by their own only with Jael's supervision. Jael is really good cooking the products that we have been doing during this time.

**Karla Nuñez (Bakery and cooking teacher)**
