2017-18 Theme: Know God

April Theme Verse:

April 18, 2018

But for this purpose I have raised you up, to show you my power,
so that my name may be proclaimed in all the earth. –Exodus 9:16 ESV

Devotional

Exodus 9:16, "But for this purpose I have raised you up, to show you my power, so that my name may be proclaimed in all the earth." Not sure about you, but I don't think I would have wanted to be Pharaoh. This message delivered by Moses from God to Pharaoh would have been one of the scariest things I think anyone could hear: "I have established you as a ruler so I can punish you and show how mighty I am." This would send a shiver up my spine! God has shown Himself to be the ONLY God. In fact, all of the 10 plagues demonstrated that God (Yahweh) was the only true God as each plague related back to a false Egyptian god. It was the ultimate showdown, and God (Yahweh) proved, for all time, that He alone is God. God's power is indescribable and nothing compares with it. His power is still seen today as we pray and see Him answer. His power is great, but it is also personal and present in our everyday life. I have a challenge for you this week: pray specifically for every little thing and every big thing in life. See if our great God doesn't answer just as specifically as you prayed. He is powerful, but His power is also personal! He is the only God!

In Christ, Ben Warner, MSHS Principal

Mr. Hearne's Recommended Resources:

In the past week my thoughts have often gone to the circle of life. I have taken great comfort in Luke 23:43, "And he said to him, 'Truly, I say to you, today you will be with me in paradise.'" Death is not the end of life for those who know Jesus as their personal Lord and Savior!!! Yet as a school community, we are grieving the death of our fourth grader Zayda Monge. We know that Zayda is in Heaven with Jesus. There are two different directions for recommended resources today. First, to help with our own or our child's grief, is a website, www.grievingstudents.org. It is filled with many videos and handouts that can be used to help students understand grief and loss. Second, in the opposite direction, is to make sure that we appreciate each moment that we have with our children, I recommend "[Top 10 Ways to Make Your Child Feel Appreciated](#)". I like this article because each of the 10 ways makes the point that spending time with our children is important. The third resources is, as always, the "[Axis Cultural Translator](#)" to help you keep up to date on American culture (make sure you check out item number three - the new video series, "No Regrets Teen Connection Toolkit").

Fabulous Learning

Solid Learning. Mrs. Marcus' 1st Grade students learned about solid shapes: cubes, cylinders, cones, and spheres. We observed mini shapes and made a comparison chart. Then the kids had to find and identify their own solid shapes on campus or at home. - Mrs. Marcus [CLICK HERE](#)

3V Teaches Transitional Kindergarten. Mrs. Vanegas's 3rd grade students shared their planet projects with TKC! TKC has been learning about space and we wanted to share our knowledge of what we have been learning with them as well. Groups of 2 or 3 students selected a planet, researched the planet, and made a poster and a drawing or model of the planet. TKC listened to each presentation and had the opportunity to see close-up to the models and drawings. It was so much fun to see and hear the excitement in the room! - Mrs. Vanegas [CLICK HERE](#)

Historical Studies Tour. Fourth grade students (from all classes) went on an overnight trip to Sacramento. We learned about the foundations of our state including Native Americans, John Sutter, California Gold Rush, and the Transcontinental Railroad. A highlight was attending school in which the teacher conducted class like they might have actually experienced in 1848. It was an exciting trip and a wonderful learning experience! - Mrs. Francis [CLICK HERE](#)

Opposites Attract. Students in Mrs. Haserot's 2nd grade class explored with magnets to learn how opposites attract. They had fun finding and experimenting with objects around the classroom that will attract to a magnet. - Mrs. Haserot [CLICK HERE](#)

"Act"ing It Out. Mr. Edington's Sophomore Bible students started presenting their projects about Acts Chapters 2 to 11. New revisions to the unit really helped them interpret Acts and helped in the quality of their presentation. - Mr. Edington [CLICK HERE](#)

**Bay Area Parents,
Vote for the BEST in private schools!**

Thank you for voting RCS elementary, middle school AND high school as the BEST private schools in the East Bay Area! Help us earn a 4th gold medal by voting at www.bayareaparent.com by April 30th!
