2017-18 Theme: Know God

February Theme Verse:

February 21, 2018

The heavens declare the glory of God, and the sky above proclaims his handiwork.

Psalm 19:1, ESV

Devotional

Psalm 19:1, "The heavens declare the glory of God, and the sky above proclaims his handiwork." During my sophomore year of college, I went through a crisis of faith. I had grown up in a Christian home, attended RCS, and even chose to attend a Christian college, but I still had this crisis. My Philosophy of Origins professor had done his job. He forced us to wrestle with our own conclusions about how the world began apart from what we thought we already knew. As I studied the different philosophies of how the world began, I decided that I would need to come to my own conclusion without the Bible. As I studied, I could not get over how excellent nature is. I spent time at the beach and I also spent time at night looking at the stars. I was amazed by the beauty and wonder of nature. They screamed loudly (proclaimed) to me that there had to be a Creator. I then must be subject to this Creator. Nature's proclamation of God as the Creator led me out of this crisis of faith and right back into a relationship with my Creator. What have you observed in nature that proclaims the greatness of our Creator God? Do you know your Creator as your Lord? He is glorious and is alone worthy of our allegiance and praise.

In Christ, Ben Warner, MSHS Principal

Mr. Hearne's Recommended Resources:

As we all know, there is no handbook for perfect parenting. Being a parent is often about experimenting to find out exactly what the child needs in the moment and what worked yesterday just isn't working today. My first recommended resource is, "[Supporting vs. Enabling](#)" which is discovering that about the different ways that parents can help support a struggling child without enabling improper behavior. My second recommended resource (which I discovered while reading the Axis Cultural Translator is going in a different direction. It describes the surprising facts that Google has learned about the importance of a well-rounded education, "[The Surprising Thing That Google Learned About Its Employees - And What It Means for Today's Students.](#)" The third recommended resource is, the "[Axis Cultural Translator.](#)"

Fabulous Learning

5th Science "UnMix-Up" – Student Investigation groups were given four dry materials and instructed to mix them up! Groups were then on their own to separate them all. Several problem-solving methods were used such as filters, magnets, and more! Each group was successful, and all four ingredients were in separate cups once again. - Mrs. Wilson [CLICK HERE](#)

Ice Cream in a Science class? We talked about States of Matter in 6th grade this week. Our case study? Ice cream! First, students had to evaluate ice cream in a solid form. Next, they had to observe the topping that was placed on it. Finally, students could consume the ice cream "matter." - Mrs. Bibby [CLICK HERE](#)

Happy Chinese New Year! Mrs. Vanegas's third grade celebrated Chinese New Year by learning how to write numbers in Chinese. Students then turned the Chinese characters into a lantern. In addition, the class had an international student visiting (for the past two weeks) and she taught the class even more about Chinese culture. - Mrs. Vanegas

4th Grade is Magnetic! Fourth grade students continue to take science to the next level by engineering an electromagnet. In groups, students collaborated ideas, designed, and built the electromagnets. - Mrs. Yip [CLICK HERE](#)

Chemistry is Electric! High School Chemistry classes learned about electroplating by plating copper metal from a penny onto the surface of a nickel. Students observed how electricity can be used for chemical reactions. (We also wonder now if our nickel is worth six cents.) - Mrs. Seganish [CLICK HERE](#)

You're invited to
Parents Coffee Hour
Thursday,
February 22
at 8:45 am
Redwood Christian Elementary
19300 Redwood Road, Castro Valley
RSVP TO JULIAKARY@RCS.EDU
CALL WITH QUESTIONS 510-537-4288

Last day to turn in late work for
this Quarter

2/28

TODAY IS THE LAST DAY TO
TURN IN LATE WORK, MISSING
WORK, OR RETAKE TESTS

THURSDAY 3/1
& FRIDAY 3/2

EXTENDED CARE IS OPEN
