2017-18 Theme: Know God

September Theme Verse:

September 27, 2017

Psalm 86:11

Teach me your way, O Lord, that I may walk in your truth; unite my heart to fear your name.

Devotional

In a world filled with lies and deception and cultures ever changing, I'm so thankful we have God's Word. His truth is absolute and it will never change or fail us. We need to know His truth, though in order to walk in it-in order to know the way of the Lord. And as we pursue His truth, He transforms our hearts into His likeness. He literally changes us from the inside out. I pray that both our hearts and minds would pursue knowing God's Word and our lives would testify to understanding who He is and the life He has for each of us. Teach us your way, Oh Lord, and help us to walk in your truth!

In Christ, Miss McGrath, MSHS Assistant Principal

Mr. Hearne's Recommended Resources:

As parents, we love our kids deeply. We want to know what is going on in their lives. It is our job to train them today to become the men and women of God in the future. Today's children are growing up in a world that has more pressure and temptation than any previous generation. Therefore, as parents, we are called to help our children develop a positive image of their future. The best place to begin is with time and daily conversations. My first recommended resource this week is "Time Is the Greatest Gift to Your Child" by Dr. James Dobson. My second recommended resource is a list of "21 Questions to Get Your Kids Talking" by Dr. Joshua Straub. The third is to keep you culturally aware, the Axis Cultural Translator.

Fabulous Learning

Math = PAY DAY! 5th graders have worked hard all month to earn their money. Checks deposited, rent paid, cash withdrawn, fines owed, accounts balanced - an auction was held. - Mrs. Wilson [Click Here](#)

Class 10 used a song this week to help master the 54 phonograms. The students had a blast singing their way to phonogram success! -Ms. Orluck [Click Here](#)

I am introducing the Focus Moves Program in PE that we will use as a regular warm-up activity all year. We talked about how the body, and specifically our core strength, is tied to our brain, so when we use our core and build strength, we are helping ourselves to learn more effectively in the classroom. - Mrs. Moog [Click Here](#)

Our STEM project the past few weeks was building nests. We then dropped the nests with a real egg in each one. The first time all of the students' eggs cracked. We went back this week and the students reviewed their mistakes, fixed the nests, and we dropped them again. The students learned that scientists and inventors often make mistakes, but they learn from their mistakes and re-work their projects. - Mrs. Francis [Click Here](#)

Physics students did virtual labs to experiment with Newton's laws, permitting them to push things around virtually! - Ms. Sierra [Click Here](#)

How Can My Family Support RCS?

Give to the RCS Annual Fund in 2017-18
