

YOUTH MENTAL HEALTH FIRST AID®

WHAT IS MENTAL HEALTH FIRST AID FOR YOUTH?

Mental Health First Aid is an 8-hour course that teaches you how to identify, understand and respond to signs of mental health problems and substance use disorders. The training gives you the skills you need to reach out and provide initial help and support to someone who may be developing a mental health or substance use problem or experiencing a crisis.

Youth Mental Health First Aid is designed to teach parents, family members, caregivers, teachers, school staff, peers, neighbors, health and human services workers, and other caring citizens how to help an adolescent (age 12-18) who is experiencing a mental health or addictions challenge or is in crisis.

Mental Health First Aid Matters. Most of us would know how to help if we saw someone having a heart attack—we'd start CPR, or at the very least, call 9-1-1. But too few of us would know how to respond if we saw someone having a panic attack or if we were concerned that a friend, co-worker, student, or child might be showing signs of alcoholism.

Mental Health First Aid helps you start conversations about mental health and substance use problems by improving understanding and providing an action plan that teaches people to safely and responsibly identify and address a potential mental health problem or substance use disorder.
