

Call for Papers for a special session on  
“Spatial CGE modeling and transport issues”  
at The 57<sup>th</sup> European Regional Science Association (ERSA) Congress,  
29 August-1 September 2017, Groningen, The Netherlands

**Description:**

Transport projects undoubtedly affect to the interaction between regions with respect to economic affair. Damage to transport infrastructure also influences the picture of economy. Spatial CGE models integrating transport system, or transport modeling, play substantial roles to measure the effects of above issues. Increased attention is being paid to performing economic evaluations of transport projects using SCGE models, not only in Europe but in Asia and America. This special session will cover theoretical, methodological, applied and practical issues related to SCGE and transport modelings.

Organizers: Tomoki Ishikura (Tokyo Metropolitan University)  
Atsushi Koike (Kobe University)

**Notes:**

- 1) Initial submission for special sessions is on the basis of an extended abstract (1500 words including contribution, theoretical framework, empirical approach and / or first results) or a draft paper (between 5000 and 10,000 words). The deadline is February 10th, 2017.
- 2) All presenters upload a full (draft) paper (deadline June 9th 2017)
- 3) Special Sessions should have a minimum of 6 contributions.  
If a Special Session does not meet the above conditions, it will be included in the program as an O-session or an R-session.

**Important date:**

December 16th 2016	General Call for Papers - Submission opens
February 10th 2017	Submission of extended abstracts or draft papers closes
March 31st 2017	Notification of acceptance for individual papers - Registration opens
June 9th 2017	- Paper Upload closes
June 31st 2017	Registration closes
