

Robert Rubino, MD, FACOG

Dr. Robert Rubino leads a practice that offers the most sophisticated, non-invasive solutions to women's health care in a welcoming and respectful environment. "It is our goal for a woman's experience to be seamless in our offices," he says. "We now have an advanced 3D Mammography Center, offering mammograms at the same time as exams. We also have an on-site lab, a Pelvic Floor Therapy program led by our prominent female urogynecologist, Dr. Audrey Romero, and non-surgical solutions including FemiLift, a laser therapy for mild incontinence, urinary frequency and painful intercourse."

A *New Jersey Monthly* Top Doctor for 11 years, Dr. Rubino has a clear definition of what success means to him. "When patients leave the office feeling they have received exceptional care, are well informed about their health, and have a clear plan on how we will partner together going forward, we have succeeded," he says.
