

B2B

EVO B2B is proud to be a new member of the Oregon Association of Nurseries' Affinity Program. EVO B2B is a business unit of EVO Payments International and we are providing cutting edge electronic payment processing services and solutions to B2B (Business-to-Business) merchants and corporations throughout the world.

So why did the OAN choose to add EVO B2B as a partner?

Technology specific to B2B Payments

Proprietary Interchange Management® technology is the difference. EVO B2B is the only business payment solution with Interchange Management technology to automate cost reduction on transactions for the lowest overall cost on payment acceptance – every time. We combine this powerful technology with custom integrations into the accounting business software solutions you are currently using.

Transparency That Counts

We deliver complete transparency on how we reduce costs and increase cash flow. Our consultative approach provides a thorough analysis of your company's current payment process and assures we have a mutually beneficial relationship.

Service and Security

Our advanced business support team, available 24/7/365, provides industry leading service for OAN members and their teams. From on-boarding through ongoing account management, we are dedicated to a single point of contact for support, PCI compliance guidance, and extensive commitment reviews throughout our relationship. Our dedication to the best business level service and highest security standards for business payments gives EVO B2B an industry leading retention rate of 96+%.

Additional Services Include:

- **PCI Compliance** – Automatic enrollment in our PCI Program which provides \$100,000 of breach coverage the day you become a customer.
- **Simple Agreements** – Month-to-month agreements with no cancellation fees.
- **Business Insights** - Robust reporting provides fast and easy online access to transaction details to help effectively manage your business.
