PROTOCOLS

Doing the work of bigger programs at a fraction of the fuss and cost. Save \$100s every month.

PROTOCOL 1 – 4-oz Kit ... Uncarine Max and Otoba Bark, the two most important microbial-defense herbs in any serious support program.

In our experience, most people meet their challenges with this *heart-and-soul program* that's affordable and easy to take on a twice-daily schedule.

List \$76. Your price \$60.

PROTOCOL 2 – 10-oz Kit ... Uncarine Max, Otoba Bark, Amor Seco DM, Pimpinella, Stevia.

Protocol 2 adds Stevia Microbial Defense, Amor Seco DM Detox, and Pimpinella Brain-Nerve cleanse to Protocol 1. List \$160. Your price \$125.

PROTOCOL 3 – 8-oz Kit ... Uncarine Max, Otoba Bark, Amor Seco DM, Pimpinella.

This is the same as Protocol 2 without the Stevia.

List \$146. Your price \$110.

Protocol 4 6-oz Kit

PROTOCOL 4 – 6-oz Kit ... Uncarine Max, Otoba Bark, Pimpinella Max.

Protocol 4 is the same as Protocol 1 with the addition of Pimpinella Max (which is a 50:50 blend of Pimpinella and Amor Seco DM and extremely popular).

List \$116. Your price \$87.50.

Remember, herbs are foods, not drugs, and they have not been evaluated as drugs by the FDA. Products and statements appearing on these pages are not intended to help you diagnose, treat, prevent, mitigate or cure any disease condition. If you are seriously ill or think you might be, please, use common sense – consult a doctor before you try to diagnose and treat yourself.

How long your herbs and protocols will last

SERVING SIZES of nutritional supplements are based on variables that include weight.*

For the microbial-defense herbs **Uncarine Max, Otoba Bark** and **Huacapurana**, we suggest for adults:

- Up to 160 pounds, 10 drops twice daily.
2-oz bottles last 60 days.
- 160 to 190 pounds, 15 drops twice daily.
2-oz bottles last 40 days.
- 190 to 210 pounds, 20 drops twice daily.
2-oz bottles last 30 days.
- 210-up, 30 drops twice a day.
2-oz bottles last 20 days.

Detox herbs - **Amor Seco DM** and **Pimpinella** – are different. The adult dose is 10 drops twice a day regardless of weight.

Pimpinella Max - which is a 50-50 blend of Amor Seco DM and Pimpinella – is taken at 20 drops twice a day regardless of weight.

When it comes to Stevia, as a sweetener use whatever amount suits your taste. For microbial defense, the serving size is 5 drops twice a day.

*If a doctor has advised you to take your herbs at other serving sizes, disregard these rule-of-thumb instructions and do what he or she suggests.

Questions? We aren't doctors and we don't pretend to be but we can help you with general concerns. Click Ask Susan & Derek at MyHerbs.net or call 1-800-215-4682.

See our **Mix-and-Match Protocol Herbs** flyer for additional herbs to meet your special needs, including Houttuynia, Artemisia, Amazon A-P, A-F and A-V, Serrapeptase, Parsley, Cecropia, Turmeric, and more.

PROTOCOL 5 - 8-oz Kit ... Uncarine Max, Otoba Bark, 2 Pimpinella Max.

Protocol 5 is the same as Protocol 4 with the addition of a second bottle of Pimpinella Max.

List \$154. Your price \$115.

PROTOCOL 6 – 10-oz Kit ... Uncarine Max, Otoba Bark, Pimpinella Max (2), Huacapurana, Stevia.

Protocol 6 provides Huacapurana as an additional microbial-defense herb.

List \$219. Your price \$177.50.

Alcohol-Free Protocols

PROTOCOL 9 - Uncarine Max, Otoba Bark, Amor Seco DM.

These are additive-free herb powders in vegetable capsules.

List \$114. Your price \$85.

PROTOCOL 10 – Saventaro, Otoba Bark, Amor Seco DM.

Saventaro is TOA-Free Cat's Claw that some people want. We, however, recommend Uncarine Max for the additional cognitive benefits that TOA-free products don't provide.

List \$113. Your price \$83.
