

ANNOUNCEMENT

Farris Engineering, Curtiss Wright Industrial Division, has appointed VRC Protx, a Technical Service Partner of Beabout Brock Easley, as a FAST Center

Farris Engineering is pleased to announce the appointment of VRC Protx as the sales, support and service representative for Farris Pressure Relief and Safety Valves across the Rocky Mountain Region. VRC Protx brings almost 65 years of industry leading expertise and solutions to all your pressure management needs from application engineering, sizing, selection, testing and repair.

As the local Farris representative and part of the Farris Authorized Service Team, or **“FAST” Center Network**, VRC Protx will provide overall life cycle management support for all pressure relief valve products. Farris’ FAST Centers provide customers with local “VR” certified service by factory-trained technicians working in independent repair, service and stocking centers. VRC Protx provides National Board qualified assembly of Farris Engineering pressure relief valve and repair services for all brands and manufacturers, including mobile units for on-site and emergency service.

VRC Protx and Beabout Brock Easley are third generation family businesses that combine the expertise of Engineers, Quality Control Foremen and Technicians who are dedicated in maintaining industry leading process safety with both shop and on-site technical service. Core technologies include pressure relief valves, control valves and valve automation. Additional technical service technologies include instrumentation, in-line valve repair and electric motor operated valves. More information and contacts at: <http://www.vrcprotx.com> or <http://www.beaboutbrockeasley.com>.
