

## Sensory Santa at ABC Pediatric Therapy

Does your child struggle with the experience of meeting Santa? Sensory Santa provides children of all abilities a unique environment to meet Santa. Our Santa is also a Pediatric Physical Therapist and our Occupational Therapist elves help make the experience enjoyable for all children.

Instead of waiting in line, the children play in our playground inspired gym and are then taken into a private room to meet Santa. Each family will receive one complimentary picture with Santa. The event is free to attend. **RSVP is required by Dec 5** and space is limited to keep it sensory friendly for all children.
