- As a young adult, do you feel because of your past experiences you could share your story and help other youth to see there is hope?
- Do you have a desire to help other youth by partnering with them and helping them to allow their voice to be heard by adults in their lives?
- As a youth, did you have experience navigating through different systems of help that were complicated? (Such as involvement with juvenile justice, mental health, children services, substance abuse, developmental disabilities, or special education.)
- Or, have you worked with youth who you think would be a great fit to help others?

*Volunteers will receive limited stipends for attending meetings with the youth as well as mileage reimbursement for travel.
