Office 365 is your complete office in the cloud.

When we say “complete office”, first of all, we mean the Office apps that you know and love – Word, PowerPoint, Excel, Outlook, etc.

With Office 365, you get these same apps as you have always used them, as desktop apps. The difference is, you are now subscribing to Office.

Which means, you will always get the latest version of these Office apps on your desktop, whether you are online or offline. And, you get Office Mobile on your smart phones for viewing and editing on the go.

You get cloud-based productivity services hosted by Microsoft, including business-class email, file sharing, HD video conferencing, all working together and connected to Office so you have anywhere access to everything you need to run your business.

And these are all enterprise-level services optimized for smaller businesses, so it’s easy to set up and manage, with a financially-backed SLA and 24/7 technical phone support for critical issues.
