

Oklahoma Department of Human Services

Safe Town

invites you to participate in a dynamic training experience regarding Domestic Violence

Did you know that **1 in 4 women** have been victims of domestic violence? Oklahoma is the 6th worst in our nation for domestic violence. These acts of victimization touch families of all educational, economic levels and ethnic backgrounds.

October is Domestic Violence Awareness Month. A one-day Domestic Violence Training (Safe Town) is being planned for community leaders, clergy, pastors, and faith leaders. Community experts and professionals will provide education, resources and pastoral tools to foster a healthier and better informed community.

****Approved for Social Work CEU's and 6 Hours of C.L.E.E.T. ****

The Oklahoma Department of Human Services Office of Community and Faith Engagement oversees the DHS Volunteer program, Domestic Violence efforts and Faith Engagement initiatives.

“Safe Town” is a powerful experiential learning activity. It is a simulation designed to incorporate various modes of learning: visual, auditory & kinesthetic . It is intended to connect the head and heart of the participant so that a deeper level of insight and understanding of domestic violence is attained.

DATE: October 3, 2017
