MOAR

Massachusetts Organization for Addiction Recovery

Our Mission

To organize recovering individuals, families and friends into a collective voice to educate the public about the value of recovery from alcohol and other addictions.

Our Vision

MOAR envisions a society where addiction is treated as a significant public health issue and recovery is recognized as valuable to all our communities.

MA - ACCESS TO RECOVERY

FY2018 Budget Priorities

The Massachusetts Coalition for Addiction Services (MCAS) is a group of advocacy organizations that have come together to speak with one voice to strengthen support for funding for addiction prevention, treatment and recovery support services and increased access to services for people with substance use disorders. This includes funds for three new Recovery Centers and money needed to sustain the successful Access to Recovery Program. Join **MOAR** with your new recovery messaging skills to help!

Criminal Justice Reform

MOAR is part of a coalition working for criminal justice reform in the commonwealth. Senator Chang-Diaz's Justice Reinvestment Act (S791) which would end mandatory minimums for drug offenses, lower probation fees, and provide better treatment, education, and re-entry programs. These changes will help address the issue of mass incarceration of people with substance use disorders in our state.

Criminal Justice

- Rep Malia's Diversion to Treatment H2181
- Days Rehab insurance covered
- Instead of Jail – Treatment
- Good Sam with non violent warrant exception

Coverage for Treatment

S1103, sponsored by Senator John Keenan, requires insurance carriers to cover up to thirty days of inpatient addiction treatment. This includes Transitional Support Services (TSS) without prior authorization if the treating clinician deems the services are medically necessary. In the midst of a widely-recognized epidemic, increased action is required to save the lives of individuals in MA suffering from substance use disorders. This bill might help to end the continual cycle of relapse and "spin-dry" detox, which puts many people at dire risk of overdose and death.

Marijuana Regulation

The Massachusetts legislature protects public health and safety and preserves local controls during the implementation of legal, commercialized, recreational marijuana in the Commonwealth. A list of bills have been filed to strengthen public health safeguards, public safety protections and local control authority of legal, commercial, recreational marijuana in Massachusetts. In order for these bills to move forward, legislators need to know their constituents want them passed into law.

Restructuring MassHealth

Massachusetts now has federal government approval for a MassHealth 1115 Waiver, which is the official title of a program which allows the state to break away from national Medicaid standards with a new design to improve MassHealth coverage. This process is to begin in July of 2017. A significant focus will be placed on improving integration and delivery of care for members with behavioral health needs. This new design includes coverage for addiction and recovery services such as Transitional Support Services (TSS) and Recovery Coaching.

21st Century Cures Act

Signed by President Obama on 12/13/16 MOAR is excited to announce the implementation of new federal legislation that will make \$1 billion in grant opportunities available to states to address the opioid epidemic. MA may receive 11 million dollars a year for the next two years beginning in April of 2017

The Women's Auxiliary of the Keeley League of Illinois, 1893. Keeley's cure involved the organization of former patients to spread the "Bichloride of Gold" gospel. The leagues also may have served to keep Keeley Institute "graduates" away from liquor, in much the same way that the Reform Clubs did, and in that respect they helped make the cure work.

Can we learn from the past ?
