CRISIS RELIEF BUCKETS

In the event of flooding, Crisis Relief Buckets become an essential resource for quickly removing debris and materials from a home to reduce the risk of increased damage and spread of harmful mold.

This list has been created so that you may easily create a shopping list online at HomeDepot.com. The SKUs are clickable links that make adding to your shopping cart easy. You may select to pick them up in-store or have them delivered to your door (All products might not be available in your local store).

These items are not the required products; however, these products have been qualified to work effectively and are chosen to fit into a five-gallon bucket (as specified in the list). You may substitute brands as you wish, and you may choose to shop through a different retailer. Just understand that these SKUs will be unique.
