In addition to funding changes for the 2018-2019 fiscal year, the House also released a number of law and policy changes that will be found in the budget, called "special provisions." Highlights of the special provisions included in the House budget are:

Provides that if a school district transfers a school to the ISD, the LEA may create an innovation zone for 3 continually low-performing schools in that district or all low-performing schools in the district if the LEA has more than 35% of its schools identified as low-performing. Provides that a low-performing school in an innovation zone that does not exceed growth for two of the last five consecutive years be placed in the ISD.
