

UMW is Faith-Hope-Love in Action

UMW makes a difference with our history of mission. In the 1800's, missionary societies supported the founding of clinics, hospitals, leprosaria, medical schools and other healing ministries throughout the world. By 1909, American Protestant women's missionary societies were supporting 80 hospitals and 82 dispensaries around the world. Mission healing involved care for the whole person. In 1890's India, Methodist missionary Dr. Nancy Mansell led a petition drive to raise the minimum marriage age to 12. Mansell was outraged at the high mortality rate among child brides, who were forced to have intercourse with much older men. Women missionaries sought a host of social reforms to end such practices as female infanticide and foot-binding in China, female genital mutilation in North Africa and forced prostitution in Burma. Join with UMW and help us continue to make a difference in the lives of women, children and youth around the world!
