

## FBC-Huntsville - Syrian Refugee Project in Jordan Dental & Medical Emphasis--October 22-30, 2017

**Background:** The Syrian refugee crisis has been called “greatest humanitarian disaster since World War II”. However this unprecedented crisis has created unprecedented opportunities to minister in the name of Jesus Christ to people who desperately need encouragement

***First Baptist Church Huntsville, in partnership with Global Outreach International, with International Mission Board, and with a Jordanian Baptist church, is helping provide education, food, clothing and other resources to 200 Syrian refugee children, most of whom have never been to school previously.***

Our team will be comprised of medical doctors, nurses, dentists, hygienists and others who will provide arts and crafts for the children at the school. We will also distribute food parcels and hygiene kits to these children’s families. (We also hope to do some painting and other maintenance projects at the school.) Our personal involvement will enhance the status of our Jordanian Christian partners and help them open doors for the gospel.
