## **OTHER DOCUMENT PLUS DATABASE CODE CHANGES**

*The following codes were recently changed in the Document Plus database to reflect more specific available options for a particular code or codes.*

## **DELETED**

R42 Vertigo

## **ADDED**

H81.12 Benign paroxysmal vertigo, left ear

H81.11 Benign paroxysmal vertigo, right ear

H81.13 Benign paroxysmal vertigo, bilateral

## **IMPORTANT NOTES:**

The above ICD-10 diagnosis codes have been added to your Document Plus database for forms CE3 and CE2. They will need to be manually added for use with the Daily Note forms. If you have questions or need assistance with manually entering these codes, please contact Melanie at 888-588-6648 or [training@docplus.net](mailto:training@docplus.net).

The codes added were selected based on codes commonly used in the average chiropractic practice and may not be all-inclusive for your specific practice. If you see many auto accident cases, there may be additional codes you wish to obtain from those recently added. We highly recommend clicking the link below to review all new, revised, and deleted codes effective October 1, 2017.
