

Construction Angels, Inc. is a 501 (c)3 Non-Profit Charity that aids families in need of financial assistance and supportive services to the surviving family members when a construction employee has lost his / her life in an on-the-job accident.

Our vision is to support families who have lost loved ones while working on a construction job site. Our goal is to assist the family at the beginning of their grieving process with hopes to provide them with a sense of comfort, both financially and emotionally. You can start supporting Construction Angels today by signing up for our monthly donation program.

Your contribution will help our charity achieve our Nationwide goal of supporting "one of our own" in the construction industry throughout the United States.
