

November 2018 – Hudson Valley NY Group Wingshoot & Cookout

Kick off the Fall shooting season with a special group wingshoot & cookout on Saturday, November 3rd at the TMT Hunting Preserve in New York's scenic Hudson Valley. DSC Northeast has reserved the preserve for the entire day for sole use of our Chapter members and their guests. Choose from upland shooting for pheasant & chukar, mallard ducks over decoys, or both!. Shoot a half day or the entire day, and gather for a hearty meal over the grill in the crisp Fall weather. A great event to share some camaraderie, shake the cobwebs off your field shooting, and put some fine-eating in your freezer!

Non-toxic shot required for all duck shooting (recommend two boxes per shooter of #2, #3, or #4 shot, either 2 3/4" or 3" magnum; #3 steel shot with modified choke is ideal as ducks will mainly present longer pass-shooting type shots). Camo or dark colored clothing recommended.
