The winds of March will blow winter blues away, filling the days with sunshine and hope for April showers and May flowers.

The world seems sad
mid winter's gloom,
But all is well
when the jonquils bloom.
- Greg Grant

Southerly winds, roaring across mountain tops before gusting through the valleys below, blow through the bare tree limbs of winter. Blossoming daffodils dancing in the breeze promise spring is on the way. Signs of spring are ahead of schedule because of the warmer than normal winter. The long slender limbs of the weeping willow are already streaming green leaves and nubs of daylilies and tulips are poking out of the ground.

As Saludians are hopefully optimistic that spring is just around the corner, they are also expectant of late winter storms and early spring snowfalls. Many mountain folk remember the "Storm of the Century" on March 12, 1993 when a freak of nature dropped a record shattering snowfall in the Appalachians and the southeast. This blizzard dropped more than 2 feet of snow with hurricane force winds that crippled power for more than a week throughout the mountains.

While Saludians look forward to longer daylight hours in March, begin to plant bulbs and prune trees, they are looking over their shoulder for ole man winter to rear his head again before spring takes hold in the mountains.

SETH WALKER
March 26 @ 7 PM

We are pleased to welcome Seth Walker for his first appearance on the Purple Onion stage on March 26 at 7 PM.

Admission for this show is $15 per person in advance, $18 at the door and seating will be limited. The performances starts at 7 PM. The doors open at 5 PM. A limited menu of pizzas and appetizers will be available from the time the doors open until the show starts with beverages and desserts available throughout the concerts. Tickets are available online or by calling the Purple Onion at 828-749-1179 for reservations.

Over the past 10 years, Seth Walker has become recognized as one of the most revered modern roots artists in the United States; a three dimensional talent comprised of a gift for combining melody and lyric alongside a rich, Gospel-drenched, Southern-inflected voice with a true blue knack for getting around on the guitar. His latest studio album, Gotta Get Back, produced by Jano Rix of The Wood Brothers, is yet another masterwork that further expands upon this reputation.

Growing up on a commune in rural North Carolina, the son of classically trained musicians, Seth Walker played cello long before discovering the six-string in his 20s. When his introduction to the blues came via his Uncle Landon Walker, who was both a musician and disc jockey, his fate was forever sealed. Instantaneously, Seth was looking to artists like T-Bone Walker, Snooks Eaglin, and B.B. King as a wellspring of endless inspiration. The rest is history. He’s released seven albums between 1997 and 2015; breaking into the Top 20 of the Americana charts and receiving praise from NPR, American Songwriter, No Depression and Blues Revue, among others.

In addition to extensive recording and songwriting pursuits, Seth is consistently touring and performing at venues and festivals around the world. Along with headline shows, he’s been invited to open for The Mavericks, The Wood Brothers, Raul Malo, Paul Thorn and Ruthie Foster, among others.

Seth Walker is currently splitting his time between New Orleans and New York City after previously residing in Austin and Nashville. He’s used those experiences wisely, soaking up the sounds and absorbing the musical lineage of these varied places. With a bluesman’s respect for roots and tradition, coupled with an appreciation for—and successful melding of—contemporary songwriting, Seth sublimely incorporates a range of styles with warmth and grace. Perhaps Country Standard Time said it best: “If you subscribe to the Big Tent theory of Americana, then Seth Walker—with his blend of blues, gospel, pop, R&B, rock, and a dash country—just might be your poster boy.”

Jim Carson   AIS  
Painting The Town/Mastering The Cityscape  
June 8-10, 2017 Thursday-Saturday 
Since the Impressionists first moved outside and began painting from life, the design, allure, and light of the city have captivated painters, from the cafes in Paris to Main Street, Saluda. 

Jim Carson, AIS, will offer a workshop, titled “Painting the Town/ Mastering the Cityscape” on Thursday-Saturday, June 8-10, 2017. In this indoor workshop, we will learn to simplify the shapes and design of the city, in order to paint it in a fresh and spontaneous manner, instead of stiff and lifeless. There will be a brief, but helpful, discussion on perspective on the first day. 

The workshop is open to all levels, from beginners to advanced. A list of paint selections, brushes, etc. will be furnished after registration. 

Jim is a member of Plein Air Painters of the Southeast(PAPSE), an Associate member of Oil Painters of America, and a Signature Member of the American Impressionist Society.

In consideration of the World Equestrian Games that will take place at Tryon International Equestrian Center from September 10-23, 2018, bringing in nearly 500,000 people to the area, the second edition of this eighteen month community art project seemed a perfect fit.

Tryon Little Theater
Join us for a fun evening of Broadway songs!
What a fundraiser! The Tryon Little Theater is bringing a spectacular array of Broadway showstoppers to the Tryon Fine Arts Center stage Saturday, March 11—including music from outstanding shows TLT isn't likely to produce due to their size, technical requirements, story line, or because they haven't yet been released for regional troupes to perform.

No, TLT will not be staging such shows as "Hamilton" any time soon, nor "Miss Saigon" and landing a helicopter onstage, nor "Sweeney Todd" with its Demon Barber of Fleet Street, nor "Next to Normal" with its convoluted relationships and intricate music, nor "Spring Awakening," on and on...

So the next best thing: an evening of Broadway songs performed by the pros and near pros who continue to grace the TLT stage. And to make this fundraising evening even more special, hors d'oeuvres and drinks will be served in the TFAC lobby at 7 p.m., followed by the show starting at 8 p.m. Then after the performance, the audience is invited to enjoy dessert while mingling with the cast. With Pam McNeil at the piano, onstage will be Debbie Craig-Archer, Carol Cox, Tim Daniels, Susie Kocher, Lori Lee, Lindsey Moore, Mark Morales, Tena Greene-Porter, James Riedy, Kate Riedy, Maggie Riedy, Chris Tinkler, Guy Winker and more. Tickets to this fundraising event are only $25 per person. Heavy Hors d'oeuvres and drinks included with ticket! Patrons are urged to book online at tltinfo.org.

Come to the Saluda Center at 9:45 for coffee and hear Jodi speak at 10.

We had over 60 people at our January program, and we hope you will come back in March and bring a friend. Mark your calendars now!

A Personal Exploit and Love Affair with the Saluda Grade
Saluda Train Tales
Friday, March 17, 2017, 7pm
Stumbling upon Saluda in 1988 looking for the Orchard Inn B&B, Bob Loehne conveniently turned this happenstance into the beginning of a wonderful personal and professional affair with America’s Steepest Class-1 Railroad Grade. In Bob’s train-oriented head thoughts starting ringing…very steep grade…runaway trains…notorious. He recalled hearing of Saluda when he lived in Seattle. Its reputation had easily spanned our country. Hiking and exploring the Saluda Grade, Bob confirmed with his own eyes how amazing the grade on the east side was—both for its jaw-dropping, ever so steep grade, and knowing that the train crews would have mastered an extended set of operating procedures in order to safely handle this obviously quite dangerous, two-and-a-half-mile stretch of extreme railroad track.

While eyeballing the confusing switching tracks on either side of downtown Saluda, he ran into an outgoing fellow named Billy Rice. It turned out that Mr. Rice knew just about all the data there was to know about the famous grade, the powerful locomotives that worked the super slope, the freight loads that traversed the incredible hill, and virtually all the train crews Billy had befriended – often with donuts – during his teenage years and over the previous 5 years in Norfolk Southern employment.

For Bob, the stage was set, the subject was dynamite, and he had an opportunity to tell the story of Saluda Grade through the video tapes of his relatively new video production business (American Altavista).

He was about to undertake a video project that demanded absolute and unerring knowledge about the hill’s long list of key facts and figures, and in which he would tell a railroad story about America’s Steepest Class-1 Railroad Grade to an unforgiving audience of rail oriented zealots – from railroad employees to the far reaches of railroad fanatics, eternal rivet counters, and the holy grail of train chasers, the rail fans – who would demand nothing less than 100% correctness.

Bob will present this story and cover a good bit of his many railroad and social exploits on America’s Steepest Class-1 Railroad Grade. Topics will cover:
Saluda Grade was permanently shut down both in 1991 and in 2001. The 1991 announcement was crystal clear, but for some reason the trains never stopped rolling.

Maps Maps Maps! Review of a variety of maps that will show off the steepness of the grade as well as "from where" and "to where" the trains are going and why they were using the route that went through Saluda. We will undertake one last public investigation in search of the location of Saluda Mountain.

Saluda still ran cabooses back in 1988...a last bastion for Norfolk Southern cabooses...always popular.

The famous Saluda Triple... it typically took three runs to get a westbound NS merchandise freight train over the steep grade and very, very rare Saluda Quintuple.

NS ran steam excursions in the 1990s...four 611 journeys up and down Saluda's incredible hill...the events took on a national status and the great grade became more notorious than ever.

As if the hill would be running trains forever, in the mid-1990s Norfolk Southern explored the benefits of more powerful locomotives tugging longer and heavier train loads. While the tests were quite successful, it was only a few years later that Norfolk Southern pulled the plug.

The cost of operating major league trains over Saluda Grade...brakes, extra crew, brakes, time-is-money, brakes, brakes, brakes!

Saluda was closed, but this guy figured he could run over the mainline if he wanted to...a different idea...he’d drive from Melrose to Tyron on the idle railroad track.

The People of Saluda - Personal memories of so many Saluda celebrities.

Matt Bumgarner's Saluda Book ... “Saluda Grade: From Top to Bottom.”

Saluda Train Tales is pleased to bring Bob Loehne back to Saluda to tell his story at the Saluda Historic Depot, Friday, March 17, 2017 at 7pm. Depot opens at 6:30 for early seating. His video productions will be available for sale and a percentage of the proceeds will go to the Saluda Historic Depot Fundraising.

Saluda Train Tales is a free monthly event to educate the community about the importance of Saluda’s railroad history and the Saluda Grade. Storytelling is the third Friday of the month at 7pm, March through December. These events are at the Saluda Historic Depot, 32 W Main Street, Saluda, NC 28773.

Making Moody Property Happy

In case you have not heard, some criminals stole all of our tools, our antique wood cook stove, a 7000 series generator, ladders, scaffolding, walk boards, a large oil tank; literally, every thing but the kitchen sink. I’m not kidding. There was a ceramic kitchen sink leaning up against the stove and they left it behind. We are scheduling volunteer days for March 4 and March 7, starting around 10 am. Our plan is to continue rehabbing the house and out buildings the first Tuesday and first Saturday of each month. If you have time to offer other than these dates, please call John Savage, 828-749-3906.

Annual Meeting

Save the Date! SCLT Annual Meeting is Wed., April 26 at 6:00 pm. Help us celebrate 10 years of keeping Saluda green and protected.

Robinson Community Garden

As of March 1st, all plots and rows have been reserved. Thanks to all of you who reserved a plot or a row.

Kudzu and Other Invasives

We at SCLT are still working on removing kudzu. Our prime site is Judd’s Peak Lookout. We are slowly working our way down the hill. The area where we cleared the kudzu has become a milkweed garden. When the kudzu is removed, many native plants spring up. In the past we have sprayed this area with kudzu specific herbicide and now we are removing the crown from the root.
Saluda Garden Club
The Saluda Garden Club has invited Scott Welborn from Polk County Extension Service to our March 20 meeting. **Historic Saluda Tour of Homes Scheduled for June 3, 2017**

**John Baxter Johnson House**

Past

Present

Mark your calendars for Saturday, June 3, 2017. Our much anticipated historic home tour returns and will feature the historic Shand Hill area of Saluda. Stay tuned to this column as we showcase a different property each month. Featured this month is the John Baxter Johnson House. Presently, owned by the Will Nelson family. Though very old, it has been well preserved by its present day owners. According to an oral history interview with Baxter's grandson, Roy L. Johnson Jr., Baxter's wife died when his father was very young. He raised his three children alone through years of hardship, at times surviving on only molasses and cornbread. Vintage photo courtesy of Roy Lee Johnson, Jr.

All proceeds from the tour benefit future projects of the Historic Saluda Committee.

**Photo Sharing Appreciated!**

We frequently receive donations of old photographs or historical documents relating to Saluda. Sometimes folks loan them to us to scan and digitalize. This is a great way to preserve your family history or the history of the town. The Historic Saluda Committee uses archival quality materials to store donated items. Collections are often shared on Facebook and on the website. As the museum grows at the Saluda Historic Depot, we hope to share more at that location and at other locations around town. There is currently an exhibit of photographs at the Depot provided by the HSC. Contact us at historicsaluda@gmail.com to contribute to history!

**Use Social Media to Get Your Saluda History Fix Every Day!**

The Historic Saluda Committee uses social media. Like our Facebook page and enjoy tidbits of Saluda history every day. We'll take you all the way back to the days of Pace's Gap on up to present day. [Click here to go to our page](https://www.facebook.com/historicsaluda/). We're also on YouTube. Oral histories or other videos are uploaded often. [Go here to find us](https://www.youtube.com/channel/UCfK6NtQf-GQeZ7t5vB8vN2g). Or you may simply search for Historic Saluda NC on either social media platform. Our website is always a source of enjoyment, so visit [www.historicsaluda.org](http://www.historicsaluda.org).

Through Our Eyes  
As Seen Through Saluda School Kids

We hope you enjoy this new series of stories written by Saluda School students.

Hannah Kirby is a 2nd grade artist. She loves bright colors.

Her class recently studied about a famous artist from the Renaissance. His name is: Giuseppe Arcimboldo. He drew and painted portraits of Emperors of Austria. He made their faces look weird and colorful by using fruits, vegetables, and plants.

Hannah's painting is a profile view. She is especially proud of the carrot nose, Indian corn and large strawberry.

He goes along with our studies about "Healthy Eating Habits."

Obsessions, Possessions and Confessions
By Cappy Hall Rearick

Before my mother-in-law died and went to Williams-Sonoma in the Sky, she thought of herself as the High Priestess of Home Wizardry. Rachael Ray was the Kitchen Goddess but Martha Stewart was the Imperial Poo Bah.

On the few occasions when I dared to open her refrigerator, I got the uneasy feeling that I had stumbled onto a top-secret laboratory. I was afraid to touch or move anything for fear of starting a widespread epidemic. Unlike the inside of my own fridge, no onionskins floated upside down in her crisper. My potatoes have more eyes than the CIA; any day now I expect the CDC wearing protective suits to show up and demand samples from my fridge.

I can never be the perfect housekeeper my mother-in-law was but I’m too old to care. The woman did her Spring Cleaning every Monday morning at 8:17 sharp. She waxed the glass shelves in her fridge with lemon oil and color coordinated the cold cuts. Me? I wipe off the fridge shelves just before trading it in for a new model.

My mother-in-law saved no food for later; the Tupperware explosion never became a part of her OCD world.

"We don't do leftovers in my house,” she said when I asked where her leftover containers were kept. “I learned a long time ago that by following recipes and measuring correctly there should be no waste. Ergo, a green planet.” After meals, if any rice was ever left in the pot, she poured it down the disposal—one grain at a time.

My mother-in-law bought herself an expiration date stamp and used it to imprint dates on everything in her kitchen that wasn’t nailed down, even boxes of salt. I add green food coloring to wilted lettuce and tell my husband it is spinach. Oops! Busted.

Once my M-I-L surprised me by organizing my spice shelf. She threw out everything slightly out of date plus any items not attractively packaged. My once well-stocked spice cabinet was reduced to one jar of cinnamon, one container of garlic powder and one Lawry’s Seasoning Salt, alphabetized, of course.

She often bragged about maintaining a clutter-free home, but after her funeral we discovered boxes of Jell-O she had been hoarding since the day Pearl Harbor was bombed. Her insistence that certain items in her household realm should kern
have a specific spot was irrefutable law, and her husband learned not to try changing her mind. In point of fact, the word change barely crept into her vocabulary several months before she died and only then because my father-in-law threatened to burn her at the stake like a demented witch.

He picked up a bedraggled towel and waved it in her face. “We’ve used these things for almost seventy years and regardless of what you may think, Martha Stewart will not put out a contract on you if you throw them away. The towels, however, are dead and deserve a decent burial.”

She tossed her white-as-flour hair, a defiant stance perfected mere hours after her wedding. “These towels and I have a connection. When I look at them, I still see myself drying all the Mr. Bubble off our two kids.”

“God’s sake, woman,” he boomed. “The kids are old enough to retire!” Before she could grab the last word, he hightailed it down to the Mall and bought new towels on sale at Sears.

I was certain she would spend the day picking lint off those new towels, but I was wrong. Only one of them got used. The others she packed away in bubble wrap as if they were blocks of nitroglycerine.

I found them in her freezer one day. “Why are these towels in the freezer,” I asked after I searching through her color coordinated cold cuts in the fridge hoping to

Saluda Faces
Marcus Robinson
Saluda Faces recognizes Saluda citizens that you may see often and wonder who they are, what they do, and why they live or work in Saluda. If you would like to refer someone for Saluda Faces, please email info@saludalifestyles.com.

In the February Saluda Faces: Marcus Robinson, Mike Boyce would like to correct two facts. First, Marcus’ first name is Harold and not Howard. Secondly, he was raised in Taylorsville but born in Hickory, NC because there was no hospital in Taylorsville at the time. Also he and his family moved quite a bit because his father, Othor Lowe Robinson was a Methodist minister.

I Remember Saluda

Model-T Fords

I don’t know about the first Fords. I’ve seen some "Copper Heads" in my childhood, but the Model-T was a car I grew up with. Sorta’ a spindly legged thing kinda’ like a big Holstein Cow going downhill. High and wide in the back and a nice head sticking out in front, with ear-like headlights.

Four cylinders. Hand controlled spark and gas. Three pedals for control: left pedal, low gear; neutral; take your foot off and you were in high gear. The middle pedal was for reverse, if you could do it, and the right one, thank God, was the foot-brake.

These things usually ran good if you could get them cranked. They had curtains you could put up if it rained, and the gas tank was under the front seat. The gas was fed to the carburetor the same way our water came into the shower and kitchen. It came by gravity.

When we went anywhere in our Model-T Ford, we first cranked it, and then we had to put it in low gear, and drive it up the mountain out of Case’s Branch hollow to the Holbert Cove road. Then we went from there, if the road wasn’t too muddy and slick, on our way.

T-Models did not have gas gauges. What you had was a little ruler-like thing that you stuck in the tank to see how much gas you had. A T-Model would not gravity-flow enough gas to the carburetor on a steep hill, if you were down to a quarter-full. My big brother had figured this down to a gnat’s heel. So what we did in case our gas was low, was to take the front seat out and put it in the back, and my brother drove and sat on the gas tank. I took the tire pump and wrapped it with rags and stuck the exhaust end into the gas tank. I packed the rags tight around the tank opening and then I pumped as hard as I could. My brother stomped that Ford into low gear and we sailed out of our hollow. The air pressure in the tank had pushed gas to the carburetor, and we knew we had done good.

Cadillacs, of a little later time, had a system like this, only the the pump was on the dash, and there was a gauge there to tell you when to pump. Honest to God!
