

Human Factors Research Group (PPCT) Defensive Tactics Instructor

PCT Management Systems (PPCT) Inc. has changed their name to Human Factors Research Group (HFRG). The listed agency will be hosting a five-day HFRG (PPCT) Defensive Tactics Instructor course. Upon completion of this program, instructors will have the understanding and ability to return to their respective agencies or academies and train officers in these proven techniques. The Defense Tactics Instructor course is designed for individual law enforcement and correction agencies to have in-house instructor(s). By having in-house instructor(s), departments will reduce the cost of sending officers to outside training, have a qualified instructor to design programs that meet departmental needs and provide training that coincides with department policies.

The New Threat Pattern Recognition (TPR) chapter in the new manual will enhance officer's response time to a deadly force encounter. This chapter is the finished product of seven year study. The study shows that 70% of officer's death occurs at 10 feet or less. A simple and highly effective movement by the officer is used to avoid a spontaneous deadly force threat, while improving accuracy for the officer.

DEFENSIVE TACTICS COURSE
