

Pollinator Potluck

Climate, Plankton, & Puffins: Lessons learned in Maine applied to CT backyards

Featuring:

Dr. Steve Kress

Vice President for Bird Conservation
National Audubon Society
Executive Director,
Project Puffin
Seabird Restoration Program

Friday, April 6
Cocktail Hour 6:00 - 7:00pm | Presentation 7:00-7:30pm
Audubon Center in Greenwich, 613 Riversville Rd., Greenwich, CT

In this 2018 Year of the Birds, join Audubon scientist Steve Kress to learn how Maine puffins are serving as sensitive indicators to climate-induced changes to the Gulf of Maine. Discuss how to create backyard sanctuaries for birds in a changing climate. Attendees are encouraged to contribute appetizers or beverages to share! Desserts provided by Happiness Is...Catering and organic wine tasting provided by The Study Fine Wines & Spirits during cocktails and Q&A session.

This **FREE** event is presented by **Greenwich Garden Club, Green Fingers Garden Club and Hortulus Conservation Committees** along with:
Audubon Greenwich | Audubon Greenwich Teen Board

To RSVP and to sign up to bring an appetizer or bottle of wine, contact Kim Gregory @ (203) 918-5254 or staglanefarm@yahoo.com.
