Together Wee Can Taste the World - Upcoming Events...

We have had so much fun this year with our "Together Wee Can - Taste The World" adventures, it's sad to think it is almost over! Children love putting on their special aprons and exploring the kitchen, where they get to learn new skills and taste different foods!

November: Jamaica

As we near the end of our "Taste the World" journey we arrive in beautiful Jamaica. Jamaica is a mountainous island in the Caribbean Sea. There are lush rolling hills and coastal beach regions that are popular with tourists.

Jamaica's Climate is tropical with constant warm to hot temperatures all year round in most regions of the country.

While children explore this tropical island, they will be making steel drums, creating their own tie-dye t-shirts, creating art with spices and making 3-bite Jamaican Beef Patties, a delicious pastry filled with meat and spices, often eaten as a whole meal.

December: Canada

Welcome home! Canada is our final stop on our "Taste the World" adventure.

Canada is a great country. Canada is the second largest country in the world, made up of 10 provinces and three territories, which is why it is so diverse in its people, landscape, climate and way of life.

This month children and Providers will explore all things Canadian, our four seasons, our national sport - HOCKEY, how to build a snow man, and lets not forget, preparing and tasting some traditional Canadian food like Tourtiere, Butter Tarts, and Poutine!

Did you know Canada is turning 150 years old in 2017? There will be countrywide celebrations all year long!

This is your celebration so be sure to join in the fun!
