Wee Learners
(4-5 years):
Caterpillar Craft

What you need:

- Construction Paper (in colours green, red, and black)
- Black Marker
- Scissors
- Stapler
- Glue

What to do:

- Cut the green construction paper into strips.
- Cut one strip of red construction paper. This red strip will be the head of the caterpillar.
- Create a circle with one green strip of construction paper and staple the ends together.
- Next thread another strip through the circle you just created and staple it together in a circle shape just as you did the last one.
- Continue until you have a chain of green circles stapled together.
- Attach the red strip of construction paper last.
- When you are done stapling the construction paper together it's time to make the features for your caterpillar's head. From the black construction paper cut out a mouth and two antennae.
- Glue mouth, antennae, and colour in the Eyes with a black marker, onto the red construction head
