

# Wee Play & Learn

Wee Explorers  
(18m - 3 years):  
Snowman Fine Motor  
Activity

## What you need:

- Clean empty plastic bottle
- White pom poms
- Orange felt or foam
- Googly eyes
- Piece of wool or string
- Black buttons
- Double sided tape
- Children's tongs (optional)

## What to do:

1. Children can drop little "snowballs" (pom poms) into the bottle using their fingers or small tongs.
2. Children can finish off their snowman by adding a face and scarf. Stick pieces of double sided tape onto the bottle, forming a face, then have children place googly eyes, orange felt/foam and buttons onto the double sided tape pieces to make a face.
3. Tie on a scarf and add a hat if you like.
