Finding stylish, great-fitting swimwear after breast cancer is easier than you thought.

Eden Spa Altamonte carries an attractive collection of swimsuits for those who have undergone breast cancer surgeries including lumpectomy, single or double mastectomy and breast reconstruction, as well as for women with every body type and background. You can feel confident and secure in these garments, knowing that they have been designed with your requirements in mind for the beach and pool.

Functional and stylish, our swimsuits have a bra-shaped bust lining to achieve a natural look, plus pockets that hold breast forms safely and securely. Join us for a special fashion show where a certified mastectomy bra fitter will be present to help you find the right fit and answer all your questions.
