August Spa Specials

Muscle Meltdown Massage

In this ultimate relaxation experience, smooth stones are carefully heated and placed at strategic points on the body. The therapist artfully incorporates the stones into a relaxing massage, relieving tension to calm both body and mind. As heat radiates from the stones, deep relief is delivered to tired and overworked muscles. This restorative treatment concludes with the application of Biofreeze Pain Relieving Gel* on the areas where you need it the most.
50 min | \$80

**Clients for whom cold therapy is not recommended may select from a variety of essential oils such as lavender, peppermint or eucalyptus as an alternative to Biofreeze Pain Relieving Gel.*
