The 2016-2017 Influenza (Flu) Season is Coming!

Bon Secours believes that requiring an annual flu vaccine for all health care workers across the continuum of care prior to influenza season is the right thing to do to protect our patients, visitors, health care personnel, their families and the communities we serve.

Employees who choose not to get the flu vaccination must wear a surgical mask at any Bon Secours patient care facility for the duration of flu season. If you fail to wear the mask at work in any Bon Secours patient care facility, the employee is subject to corrective action, up to and including termination.

Please make plans for your Influenza Vaccination at one of these Richmond Flu Clinics:
