

# Control your fans from your Smart Phone

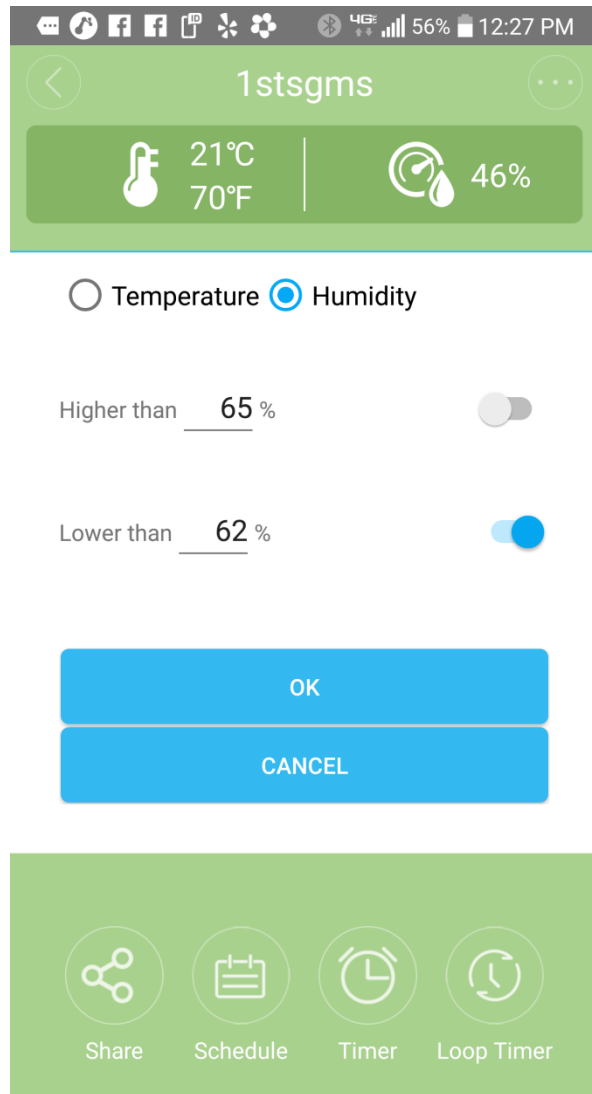

StepsGMS APP, Temperature/Humidity  
Switch

# What is the Steps Wireless Temperature/Humidity Smart Switch

- The WIRELESS TEMPERATURE AND HUMIDITY SWITCH monitors outside temperature and relative humidity. Based on this information you can turn anything on/off manually or select automatic to use timers or set points, from your smart phone from anywhere.

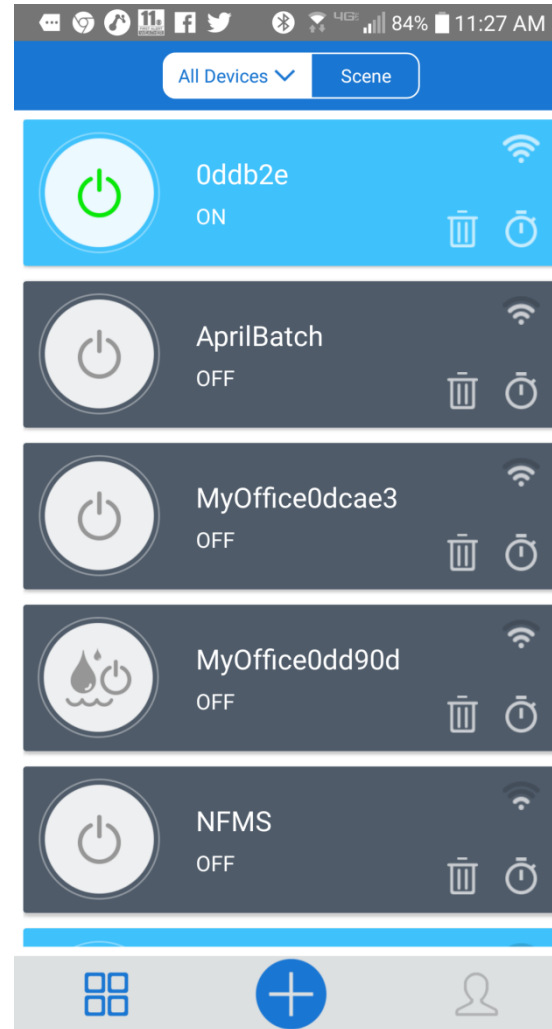

Setting the StepsGMS Switch to manual allows you to turn it on/off from your smart phone!

Setting the StepsGMS Switch to Auto will automatically turn on/off based on timers or set-points of outside air temperature or humidity!

# Operate up to 150 switches from one account!

# REQUIREMENTS

- \* Must have a Smart Phone
- \* Must have WiFi at the location of the switch (if you do not have WiFi at your location you can purchase a MiFi from your local cell phone carrier.)
