

EOEA Survey of Services in Affordable Senior Housing Properties¹

Summary of Results

Summer 2018

BACKGROUND

Studies have shown that the presence of a Service Coordinator in senior housing can lead to a decrease in hospitalizations among residents.² EOEA recognizes that this staff play an invaluable role in linking residents to benefits and resources in the community and supporting them as they age. As part of an effort to assess the availability of Service Coordinators in affordable senior housing properties across the state, EOEA surveyed owners/property managers of 1,182 properties (see Attachment A for a complete inventory of surveyed properties).³ These properties represented over 104,000 housing units for seniors including:

- federally subsidized public housing properties operated by local housing authorities and targeted to seniors
- state subsidized public housing properties operated by local housing authorities and targeted to seniors
- federally subsidized affordable housing for seniors operated by private organizations
- state subsidized private affordable housing properties for seniors operated by private organizations
- properties with both federal and state funding streams operated by private organizations

The survey was conducted online and consisted of the following 3 questions that were asked related to each property (copy of the complete survey is included in Attachment B):

1. Does the property have a designated Service Coordinator? In this context “designated” implies that the residents have access to the Service Coordinator on a regular basis (e.g., onsite office hours, reachable by phone)?
2. How many hours per week is the Service Coordinator onsite at this specific property?
3. How is the Service Coordinator staff position funded (please check all that apply)?

Funded through Housing Agency resources (e.g., property's operating budget, residual receipts, tenant rent, excess income)

Funded through DHCD Mixed Population or Service Coordinator grant

Funded through HUD ROSS/FSS grant

Funded through fundraising activities

¹ Thank you to the University of Massachusetts Boston Gerontology Institute for supporting this work and Brittany Gaines for her assistance in conducting the survey

² *Affordable Senior Housing Plus Services: What's the Value? Examining the Association Between Available Onsite Services and Health Care Use And Spending*; LeadingAge, www.leadingage.org/sites/default/files/Housing%20Services%20Value.pdf

³ It should be noted that this inventory is based on the best data available regarding each property. The list may be incomplete and/or inaccurate and the funding sources may change over time.

- Funded through HUD Service Coordinator grant
- Provided by a separate organization (e.g., elder service agency) (If yes, please explain _____)
- Other (If yes, please explain, _____)

RESULTS

EOEA received responses from over 250 owners/property managers, representing 777 properties – a 66% response rate. Most of the responses came from local housing authorities administering state funded public housing and private affordable housing providers with state financing.

Based on the information provided by respondents, 63% of senior affordable housing properties have a designated Service Coordinator who is onsite in the building an average of 20 hours each week. The presence of a Service Coordinator and the average weekly hours vary significantly by type of housing:

- 80% of the federally subsidized public housing properties that responded to the survey have a designated Service Coordinator who is onsite in the building an average of 15 hours each week
- 43% of the state subsidized public housing properties that responded to the survey have a designated Service Coordinator who is onsite in the building an average of 15 hours each week
- 82% of the federal and state subsidized private affordable senior housing properties that responded to the survey have a designated Service Coordinator who is onsite an average of 28 hours each week

Service Coordinator staff is funded through a variety of mechanisms. The most prevalent funding source is the Housing Agency’s own resources, such as including the funds in the property’s operating budget or using residual receipts, tenant rent, excess income; however, other funding sources were also utilized including EOEA Supportive and Congregate Housing grants, DHCD Mixed Population/Service Coordinator grants, and HUD Service Coordinator grants.

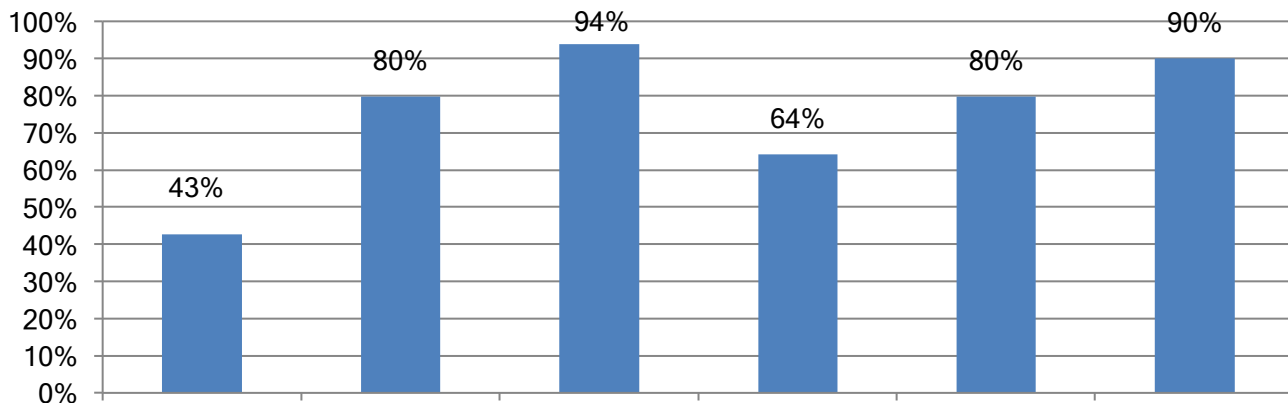

Executive Summary

Studies have shown that the presence of a Service Coordinator in senior housing can lead to a decrease in hospitalizations among residents. EOEAs surveyed owners/property managers of 1,182 affordable senior housing properties to assess the availability of Service Coordinators:

- 777 properties responded to the survey (66%), representing 70,982 units (68%)
- 493 properties (63%) reported having a Service Coordinator
- Service Coordinators spend 20 hours per week on average onsite
- Primary funding source for Service Coordinator is Housing Agency Resources (250)
- Secondary funding source for Service Coordinator is EOEAs Supportive/Congregate Housing (64)
- State-administered Public Housing reported the lowest percent of Service Coordinators (43%) though this housing type has the most properties (511, 43% of total properties) and # units (28,683, 27% of total units) for older adults in the Commonwealth

ATTACHMENT B – EOEA Survey of Services in Affordable Senior Housing Properties

The Massachusetts Executive Office of Elder Affairs (EOEA) is assessing the availability of services in affordable senior housing properties across the state.

Studies have shown that the presence of a Service Coordinator can lead to a decrease in hospitalizations. EOEA recognizes that these staff play an invaluable role in linking residents to benefits and resources in the community and supporting them as they age.

EOEA is asking for your help in identifying which affordable senior housing properties in Massachusetts have designated Service Coordinators (also referred to as Resident Service Coordinators or Mixed Population Coordinators).

We appreciate your help in completing this brief survey!

Please note the following when completing this survey:

- We are requesting information only about those affordable housing properties in Massachusetts that you own/manage that are **targeted to seniors. This could include federal or state public housing, HUD-funded Section 202 properties, or other privately owned affordable housing developed with public resources.**
- This survey concerns Service Coordinator staff that are available to residents of senior affordable housing properties. These **Service Coordinators** could also be referred to as **Resident Service Coordinators or Mixed Population Coordinators** and could be the staff of your agency, the housing owner, property manager, or a partner organization.
- We would like information on **EACH** of the senior affordable housing properties you own/manage in Massachusetts. Once you've completed the questions pertaining to one property, you will be asked if you own/manage additional senior affordable housing properties. If so, you will then be asked the same questions for each of those additional properties. Once you've completed the questions for each of the senior affordable housing properties you own/manage, you will be routed to the end of the survey.
- Please feel free to forward the survey to the person you feel is most knowledgeable about the Service Coordinator staff that are available to residents at your senior affordable housing properties.

If you have any questions or concerns regarding this survey, please contact Emily Cooper, Chief Housing Officer, Massachusetts Executive Office of Elder Affairs at **617-222-7472** or **emily.cooper@state.ma.us**.

Please fill in your contact information below.

Name:

Agency:

Email:

Phone:

SENIOR AFFORDABLE HOUSING PROPERTY 1

1. Please fill out the following information for Property 1.

Name:

Address:

2. Does Property 1 have a designated Service Coordinator? In this context “designated” implies that the residents have access to the Service Coordinator on a regular basis (e.g., onsite office hours, reachable by phone)?

- Yes-----If selected, please go to question 3.
- No-----If selected, please go to question 5.
- I don't know-----If selected, please go to question 5.
